

NATURE of HUMAN THOUGHT

Essays on Mind, Matter, Spirituality and Technology

[Anil K Rajvanshi](#)

This book presents a unique scientific perspective on the nature of human thought, its production, transmission and interaction with matter. A conceptual framework is attempted to show how deep human thought, space, time, matter and Universal Consciousness are related. The nature of thought and mind control according to ancient Patanjali Yoga Darshan is explained in the light of modern brain research and cosmology. The book provides a beautiful blend of Indian philosophical thought and modern science.

Dr. Rajvanshi brings into these essays a deep scientific insight on the nature of human mind and shows how the cultivation of deep thought can help us on the path of spirituality so that we can live a happy and sustainable life. The essays also explore the relationship between spirituality, science, technology, and show that they go hand in hand and are necessary for a sustainable and emotionally satisfying world.

CONTENTS

Preface

Acknowledgements

BASIC THEME

Nature of Human Thought

Deep Thought in Higher Dimensional Space

Deep Thought and Gravity

Time and Universal Consciousness

Death, Karma and Reincarnation

DEEP THOUGHT and MORE

Deep thought produces Happiness

Prepared mind gets Universal knowledge

Designer dreams through Yoga

Deep Faith helps overcome Fear

Attributes of a Good Guru

Music, Meditation & Happiness

Rise up for a better world

SPIRITUALITY, TECHNOLOGY and

SUSTAINABILITY

Using Technology for Spiritual Progress

Nature Conservation + Spirituality = Sustainability

Mahatma Gandhi: A votary of Sustainable Living

Web of love

Flying as a spiritual experience

Choices and happiness

Personal evolution helps mankind's progress

Some personal experiences

NOTES AND REFERENCES

Author

Anil K Rajvanshi is a Mechanical Engineer by profession. He received his Bachelor of Mechanical Engineering from IIT, Kanpur and his Ph.D. from University of Florida, Gainesville, USA. He and his wife Nandini Nimbkar (also a US - trained scientist) run a small science and technology based NGO called Nimbkar Agricultural Research Institute (NARI) in Phaltan - a small town in rural Maharashtra. He does research in the areas of renewable energy, rural and sustainable development, and spirituality. He has written and published extensively on these issues both in national and international publications.
